Beyond Ferguson, Beyond Race, and Back: Discrimination in East Asia / East Asia in St. Louis

This Teacher’s Workshop will guide area educators through explorations of the way discrimination appears in Asia, with primary focus on East Asia. Among the topics we will introduce will be: tensions between ethnic Chinese and the indigenous peoples of Taiwan; conflicts between Korean-descendants in Japan and other Japanese; issues involving ethnic diversity in China. We will also discuss the increasing populations of Asians in St. Louis and the particular issues they encounter.
